

AMENDMENT UNDER 37 C.F.R. §1.312  
Application No.: 10/759,139

Attorney Docket No.: Q79440

**REMARKS**

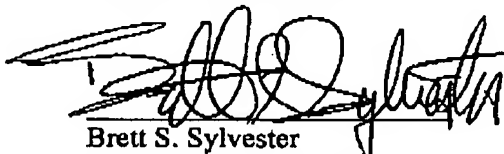

This application has been allowed and the issue fee has been paid. The Examiner called counsel on May 24, 2007 to advise that the USPTO printing office is having difficulty printing the application as a patent because the data in Tables 1 and 2 in the specification are difficult to read.

The sole purpose of this Amendment is to provide the Office with a clearer, replacement copy of Tables 1 and 2 of the application. No changes have been made to the Tables -- the copies of the Tables submitted herewith are simply clearer copies of existing Tables.

No new matter is added, and entry of the Amendment is respectfully requested.

Applicant respectfully submits that this filing should have no effect on the Patent Term Adjustment for this application, because he is merely providing clearer copies of two Tables in the application, at the Examiner's request.

Respectfully submitted,
